## DANIEL SPEHLER PRESIDENT

Welcome to the 55th annual Great Lakes Emmy Awards!

It's great to be back at the newly-renamed Hotel Cleveland where we last gathered in 2019, for our 50th anniversary gala. You've again done some amazing work this past year, and we're so proud to honor the best in our region tonight as we celebrate your incredible accomplishments from this past year.

This evening, we're also honoring our Gold & Silver Circle inductees. Eight distinguished veterans from our chapter who've accomplished so much throughout their celebrated careers.

And as we do so, we're also helping the next generation of broadcasters by awarding three scholarships to some very deserving recipients who plan to chart their own course in our industry in the years to come. Your contributions to our chapter help fund these scholarships, and make a real difference in the lives of these aspiring student broadcasters.

It's all part of our mission to honor excellence in our industry – and inspire excellence in our industry – from our students embarking on the early phases of their career to our highly accomplished veterans and retirees who have lead the way within our industry for years.

Congratulations again to all of this year's nominees- and we'll see you again at the gala next year in Indianapolis!

## SCHOLARSHIP RECIPIENTS

### BGSU

#### Andrew Kish

Andrew Kish is entering his final year at Bowling Green State University where he is majoring in journalism and minoring in photography. He's been on the Dean's List every semester. He's also been actively involved with BGSU's independent student media organization, BG Falcon Media, where he recently completed an internship.

The Central Great Lakes scholarship committee noted Andrew's varied skills as a multimedia journalist and photographer in his application. His work, featuring stories on and off campus, has been featured many times in the student newspaper, website, and newscast.

Andrew's passion is covering stories that affect individuals with disabilities. Some of his work in this area includes covering the opening of an inclusive playground, a high school orchestra program that teaches students with developmental and intellectual disabilities how to play a stringed instrument, and most recently, a student who faced accessibility challenges on a university campus.

GOLD & SILVER  
CIRCLE  
SOCIETY

The Silver Circle and Gold Circle honor media professionals who began their careers in television in a performing, creative, technical administrative role, or in an area related to television such as TV journalism, education, advertising, promotion, and public relations.

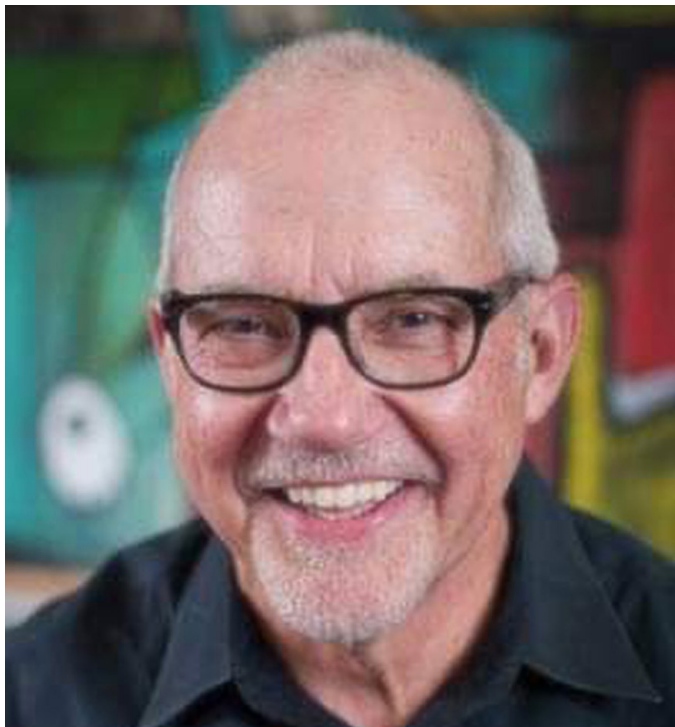

Beyond the number of years in the industry, induction into this elite group considers a person's significant contributions to the general community, Central Great Lakes Chapter television and The National Academy of Television Arts & Sciences, and the training of others for careers in broadcasting.

The NATAS Central Great Lakes Silver Circle was first presented in 1991 for at least 25 years of service. The Gold Circle, presented to those with at least 50 years of service, was first presented in 2005.

We thank the Silver Circle Committee for rigorously vetting the nominees and voting on a slate that was forwarded to the board for approval.

## **BETSY KLING**

Born and raised right here in Northeast Ohio, Betsy's hometown, Copley, is in Summit County just to the west of Akron. After graduating from Copley High School, she went to Bowling Green State University where she earned her journalism degree and a minor in meteorology. She finished her remaining meteorology coursework through Mississippi State University. Betsy worked in Fort Wayne, Indiana, and Jacksonville, Florida, before coming home in 2003. In 2008 she became Cleveland's first female Chief Meteorologist.

Betsy is part of a small (but growing!) group of women in the country who have earned the prestigious Certified Broadcast Meteorologist (CBM) accreditation from the American Meteorological Society, as well as the Seal of Approval from the National Weather Association (NWA). Betsy was named National Weather Association 2021 Broadcaster of the Year, is the only person to be named Member of the Year twice by the organization (2021, 2004), and received a Special Achievement award in 2015. She has been a long time Broadcast Program Chair for the NWA's Annual Meeting, is a past Councilor and was a founding board member of the NWA Foundation. Additionally, she currently serves on the AMS Board on Broadcast Meteorology.

In 2018, 3News tapped Betsy to start a multi-year initiative to encourage a focus on STEM education (Science, Technology, Engineering and Math). The station quickly gained recognition for shining the spotlight on women in STEM careers and highlighting "STEMbassadors" -- women and girls doing great things in STEM. The collections of stories and interviews are available at WKYC's Growing Curiosity: Girls in STEM. The series now continues as "Growing STEM" and is featured every Wednesday on 3News at 5PM.

Betsy is the winner of numerous Emmys and Ohio Journalism awards. In November of 2015, Betsy was the 8th recipient of one of the highest honors in Northeast Ohio media -- The Chuck Heaton Award from The Press Club of Cleveland. It is given to an individual who best exemplifies the qualities of Chuck Heaton, the late Plain Dealer reporter and Press Club Hall of Famer who passed away in February 2008. Heaton was known for his lifelong dedication to journalism, his fairness, his concern for community and helping others. Betsy has been named the "Best of Cleveland" Weather Forecaster by the readers of Cleveland Magazine in 2015, 2016, 2017, 2018, 2019, 2020, 2021, 2022 and 2023. She's also been featured on the magazine's cover of the "City List" issue and is a "Most Interesting People" alumna. Additionally, Kling is a "Best of" in other publications like Cleveland Scene (2023, 2022, 2021 Best Anchor/Personality, 2019 Best Anchor, 2018 Best TV Personality, 2016 Best Meteorologist), and Akron Magazine. Crain's Cleveland named her a Notable Woman in STEM in 2019. Passionate about teaching people of all ages about the weather, Betsy created and produced 3News' Weather Education Day with the Cleveland Indians (now the Guardians).
